About me

Creative and adaptable web developer with a strong passion for AI tools, automation, and modern digital solutions. Experienced in building responsive websites and using AI-powered software to improve creativity, productivity, and everyday workflows.

Experience

Web / Wordpress Developer

PNH Malaysia 2025 - 2026

Complete website building workflow from starting to launching, using Wordpress or vibe coding, complete with hosting, domain purchase, dns management. In addition, optimizing websites using optimization tools and plugins, best for SEO and crawlability.

AI Chatbot Developer

Cyberwolves 2024 - 2025

Whatsapp AI Chatbots built using Make, also worked with n8n, Airtable, and other tools.

Intern Web Developer

Double Dot 2022 - 2023

Mostly developing and testing websites, working closely with team members to develop websites and manual testing.

Education

Sunway University & Lancaster University

2020 - 2023

BSc (Hons) Information Technology (Computer Networking & Security)

Sunway College

2019 - 2020

Canadian International Matriculation Programme (CIMP)
